Close Out Drill

DEFENSE / FOOTWORK / RECOVERY

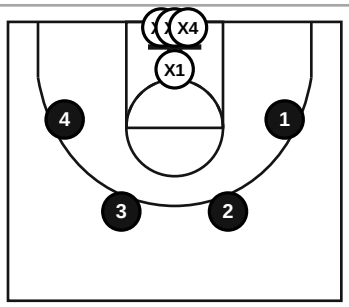
Defenders close out four perimeter players, react to a jab step, and recover before rotating assignments.

8 PLAYERS | 0 BALLS | HALF COURT

STEP 1

SET THE FOUR SPOTS

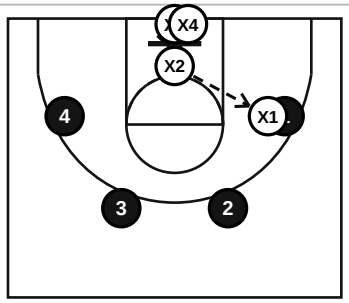
Four offensive players begin in triple-threat stance around the arc. The remaining players form the defensive line. No ball is used.



STEP 2

CLOSE OUT THE FIRST PLAYER

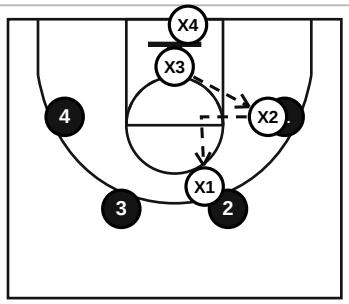
The first defender closes out using a bunny hop or stutter step, calls 'ball,' and finishes under control in a defensive stance.



STEP 3

RECOVER TO THE NEXT PLAYER

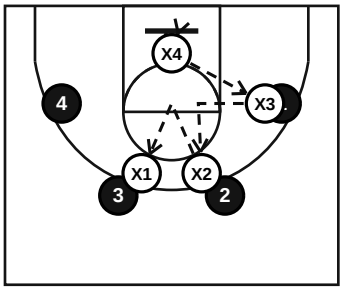
React to a one-step offensive move with a drop step and quick slide, then recover as the next defender begins the closeout.



STEP 4

ROTATE THROUGH THREE CLOSEOUTS

Continue the closeout, drop-step, quick-slide, and recovery sequence while maintaining stance and communication.



STEP 5

CONTINUE ROTATIONS AND ROTATE PLAYERS

Complete the sequence, then rotate personnel. The lead defender joins offense, each offensive player advances, and the final player joins the defensive line.

VARIATION

- Practice both bunny-hop and stutter-step closeout methods.
