Five Corner Passing

PASSING / COMMUNICATION

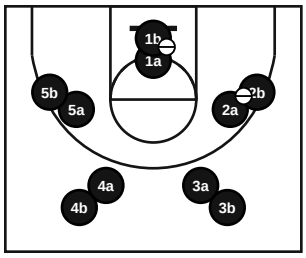
Five lines pass next-but-one around a star, then follow each pass through traffic to the receiving line.

ALL PLAYERS | 2 BALLS | HALF COURT

STEP 1

FORM FIVE LINES

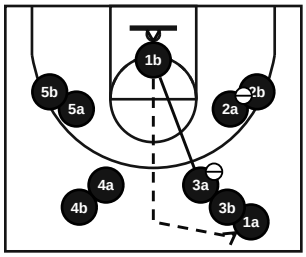
Form five evenly spaced lines with two players at every point of the star. Players 1a and 2a begin with basketballs.



STEP 2

PASS ACROSS THE STAR

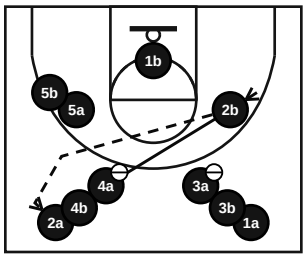
Player 1a calls Player 3a's name and delivers a crisp pass across the star. Player 3a steps toward the ball with ten fingers shown.



STEP 3

FOLLOW TO THE FAR SIDE

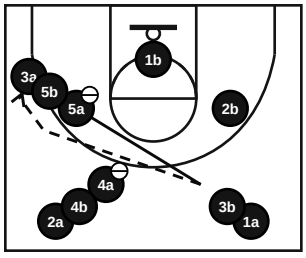
The passer runs to the far side of the receiving line, creating traffic for the next pass while the line advances.



STEP 4

CONTINUE THE STAR

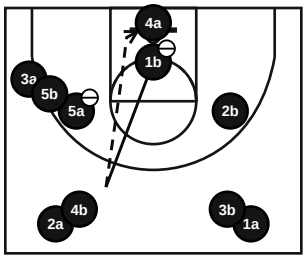
Player 3a passes next-but-one to Player 5a, then follows through the middle to the far side of that line.



STEP 5

KEEP THE RHYTHM

Continue around the five-point pattern with both basketballs. Communicate early, meet every pass, and keep every line moving at game speed.



VARIATION Begin with one ball for newer players.
