Five On Four Plus One

TRANSITION / DEFENSE / ADVANTAGE

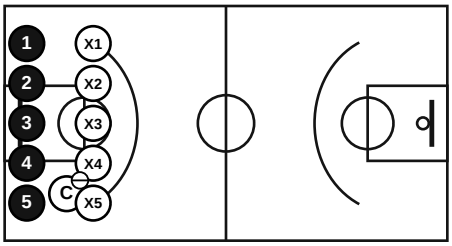
Five attackers push against four retreating defenders while a delayed fifth defender sprints back into the play.

10 PLAYERS + COACH | 1 BALL | FULL COURT

STEP 1

SET THE TRANSITION TEAMS

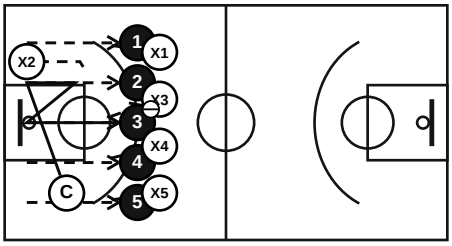
Five offensive players line up across the baseline. Their defenders begin across the free-throw line extended while the coach holds the ball.



STEP 2

PASS AND RELEASE

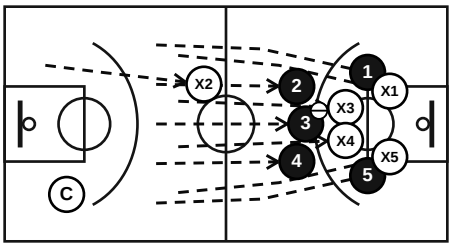
After the coach passes to an offensive player, the defender across from the receiver runs to the baseline and waits for the coach's release before joining the defenders.



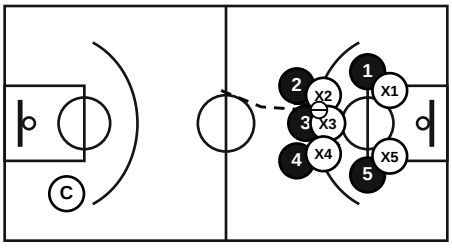
STEP 3

PROTECT THE BASKET FOUR-ON-FIVE

Four defenders sprint back, protect the basket, stop the ball, and communicate matchups while the offense attacks its temporary advantage.



STEP 4

SPRINT THE PLUS ONE INTO THE PLAY


The delayed defender sprints behind the ball and rejoins the defense. The unit communicates, matches up, and completes the transition stop.
