Full Court Four Line Passing

PASSING / TRANSITION

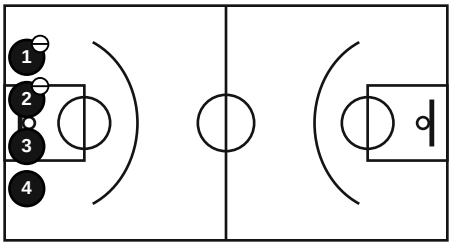
Four lanes advance at full speed while crossing passes create traffic before an outside player cuts for a lay-up.

ALL PLAYERS | 2 BALLS | FULL COURT

STEP 1

START IN FOUR LANES

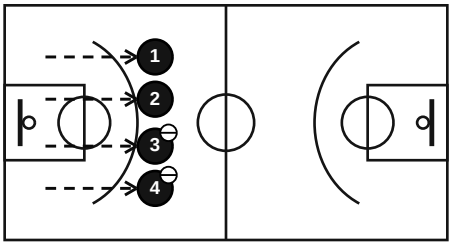
Form four lines across the baseline. Players 1 and 2 begin with basketballs while all four runners face up court.



STEP 2

PASS ACROSS THE TRAFFIC

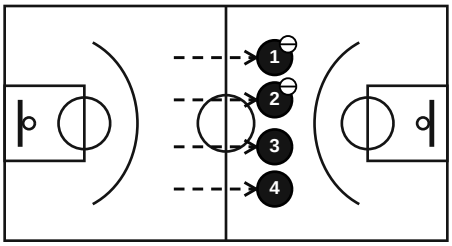
All four players run in their lanes. Player 1 passes across to Player 3 and receives the return while Player 2 exchanges with Player 4.



STEP 3

ADVANCE WITHOUT STOPPING

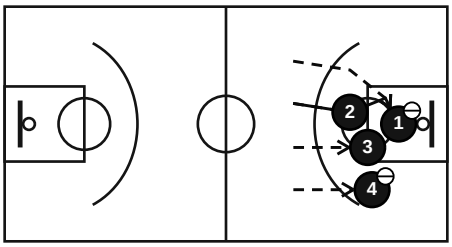
Keep sprinting and exchange another pass across the lanes, leading the receiver and maintaining spacing through midcourt.



STEP 4

CUT FOR THE LAY-UP

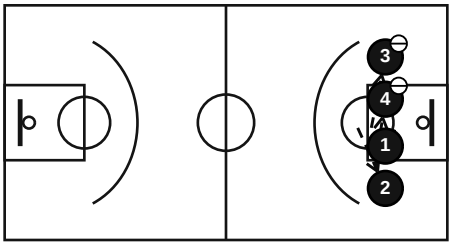
At the far free-throw line extended, the outside player cuts hard to the basket and receives a pass in stride for the lay-up.



STEP 5

EXCHANGE LINES AND RETURN

Inside and outside players exchange lines, then return down court using the same full-speed passing pattern.



VARIATION Pass to the adjacent line for younger players.
