Three-Player Weave

PASSING / TRANSITION / LANE SPACING

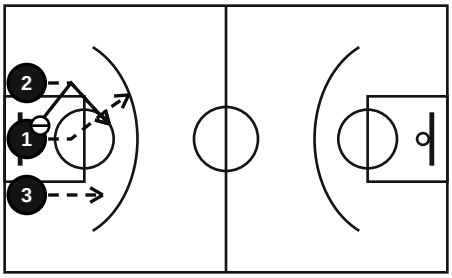
Three players pass ahead and exchange lanes, with each receiver carrying the ball into the middle lane.

3 PLAYERS | 1 BALL | FULL COURT

STEP 1

START IN THREE LANES

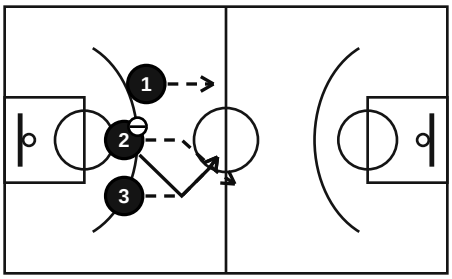
Form three baseline lanes. The middle player begins with the ball.



STEP 2

PASS, THEN EXCHANGE LANES

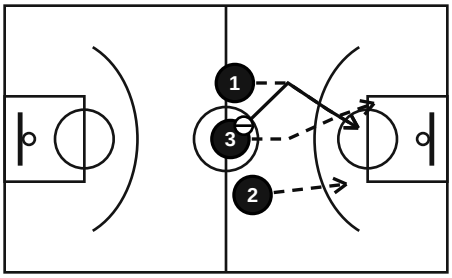
All three advance. The middle player passes outside and cuts in front of the receiver; the receiver carries the ball into the middle lane.



STEP 3

PASS AND EXCHANGE AGAIN

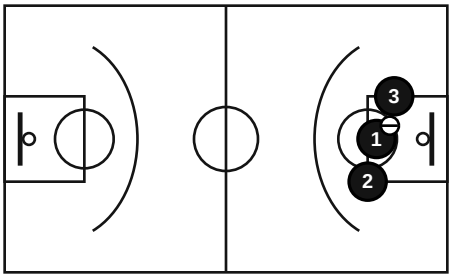
Pass to the opposite outside lane. The passer cuts in front of the receiver while the receiver brings the ball into the middle.



STEP 4

FINISH AT THE RIM

Make the final pass ahead. The passer cuts in front of the receiver, who enters the middle lane and attacks the basket while the third player fills outside.



VARIATIONS Return in the opposite direction, or specify the pass type for each trip.
